

Female direct effect of WT (age 3)
on SBP (age 20)

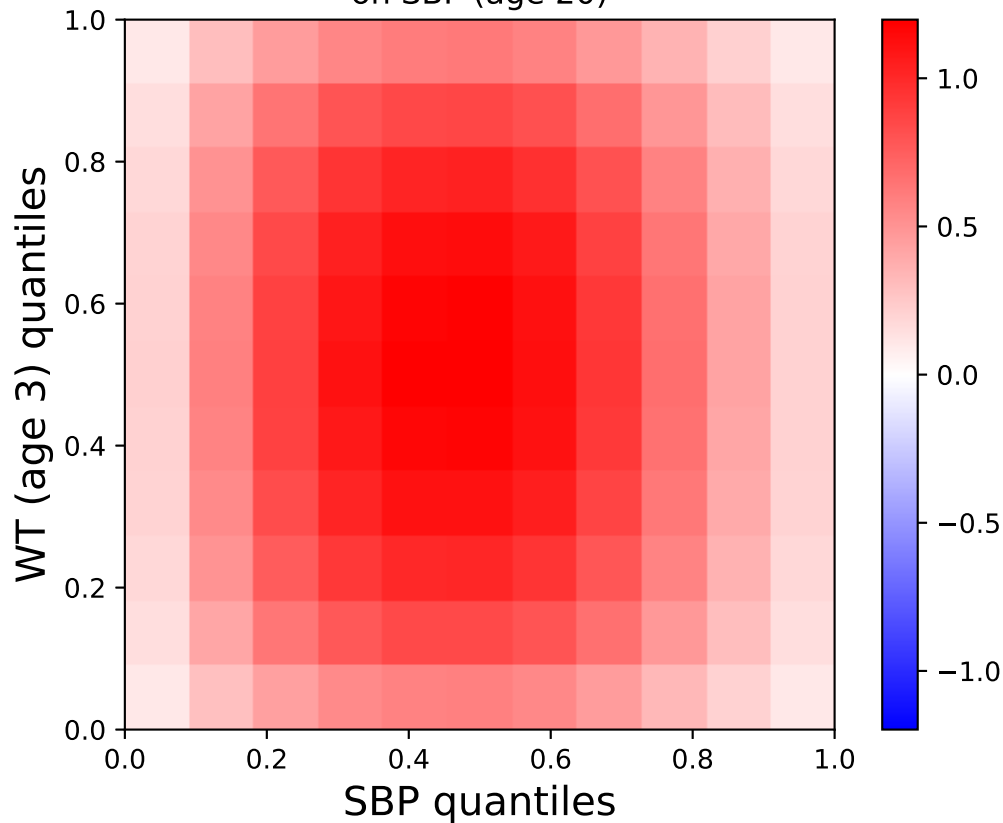

Female indirect effect of WT (age 3)
on SBP (age 20) through adult Ht_Ave_Use

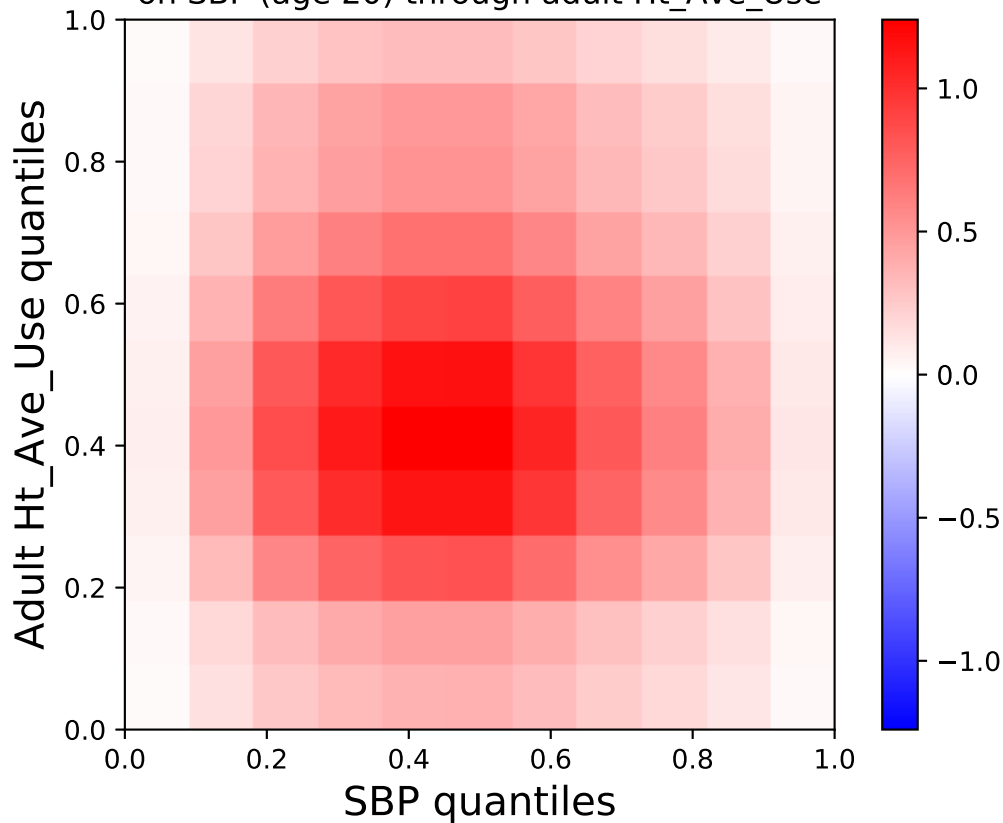

Female indirect effect of WT (age 3)
on SBP (age 20) through adult BMI

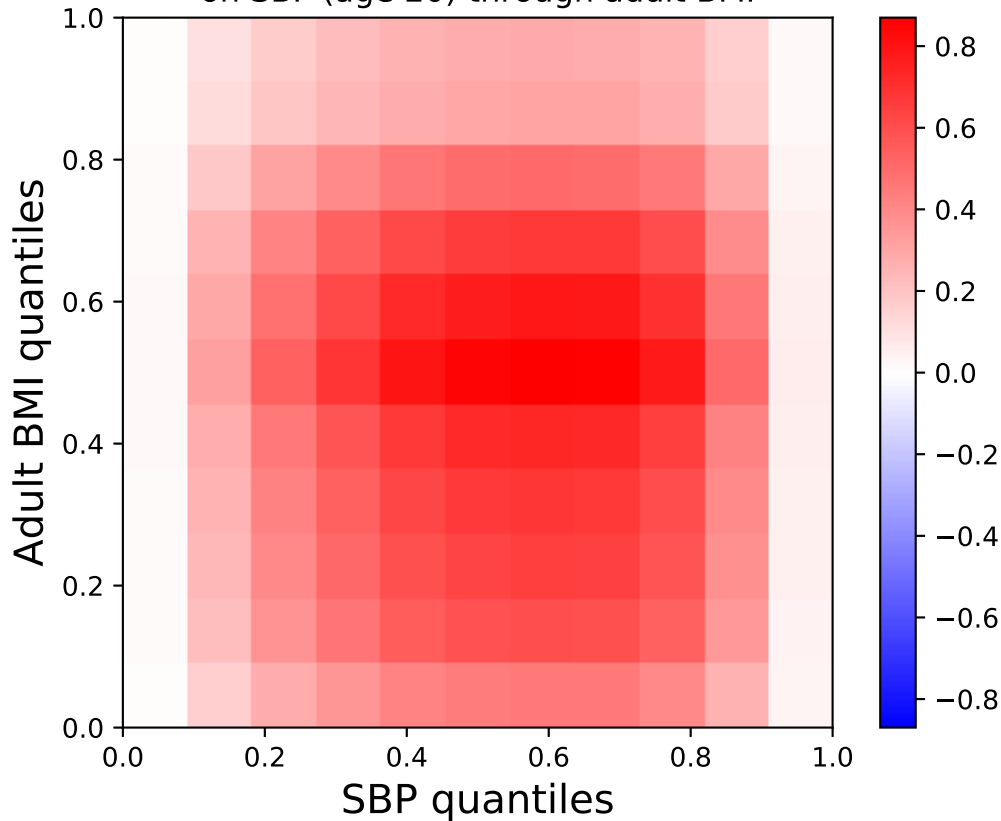

Male direct effect of WT (age 3)
on SBP (age 20)

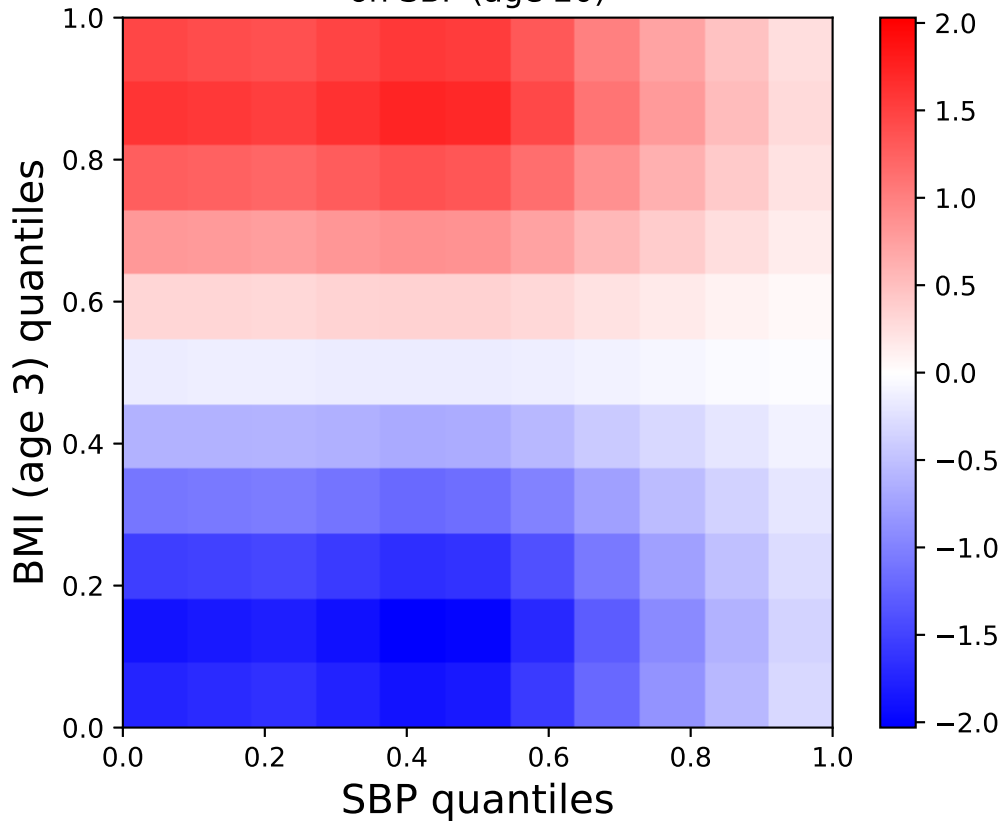

Male indirect effect of WT (age 3)
on SBP (age 20) through adult Ht_Ave_Use

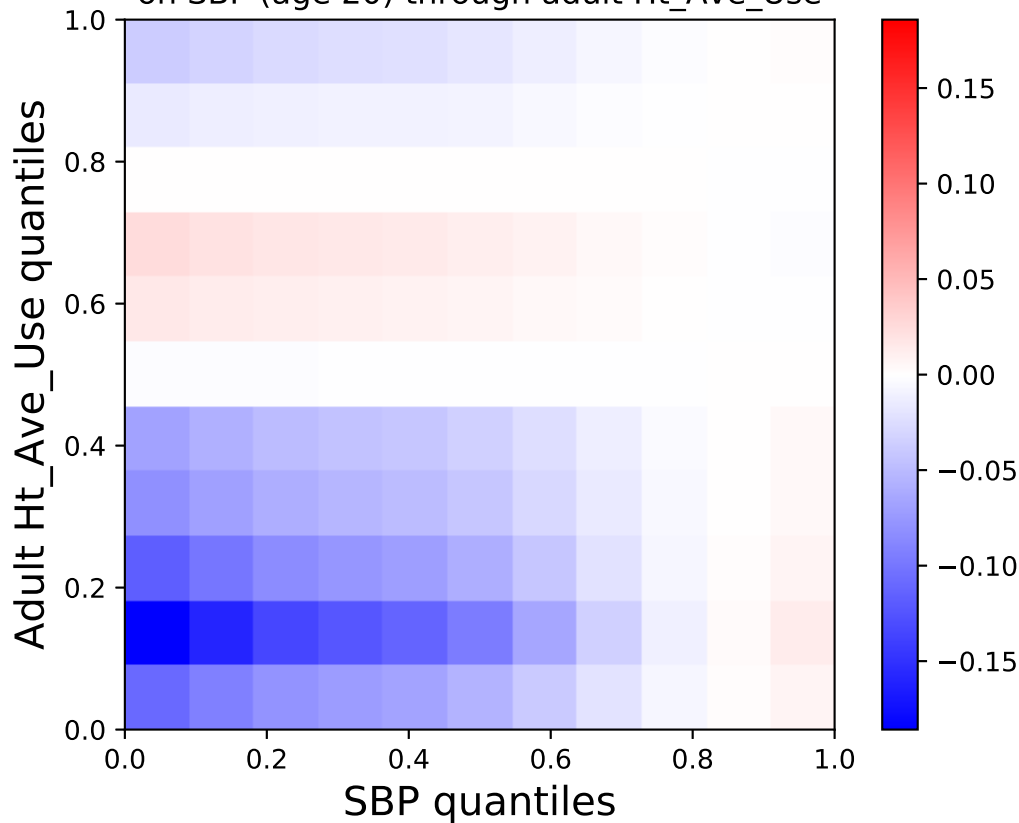

Male indirect effect of WT (age 3)
on SBP (age 20) through adult BMI

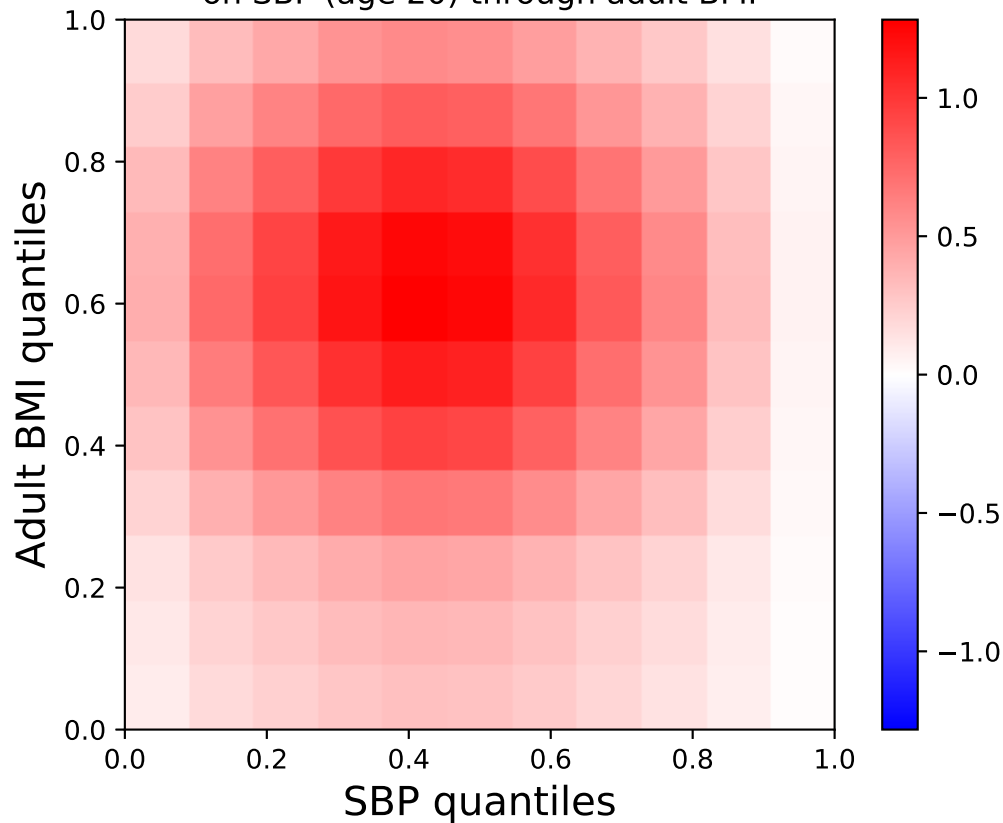

Female direct effect of BMI (age 3)
on SBP (age 20)

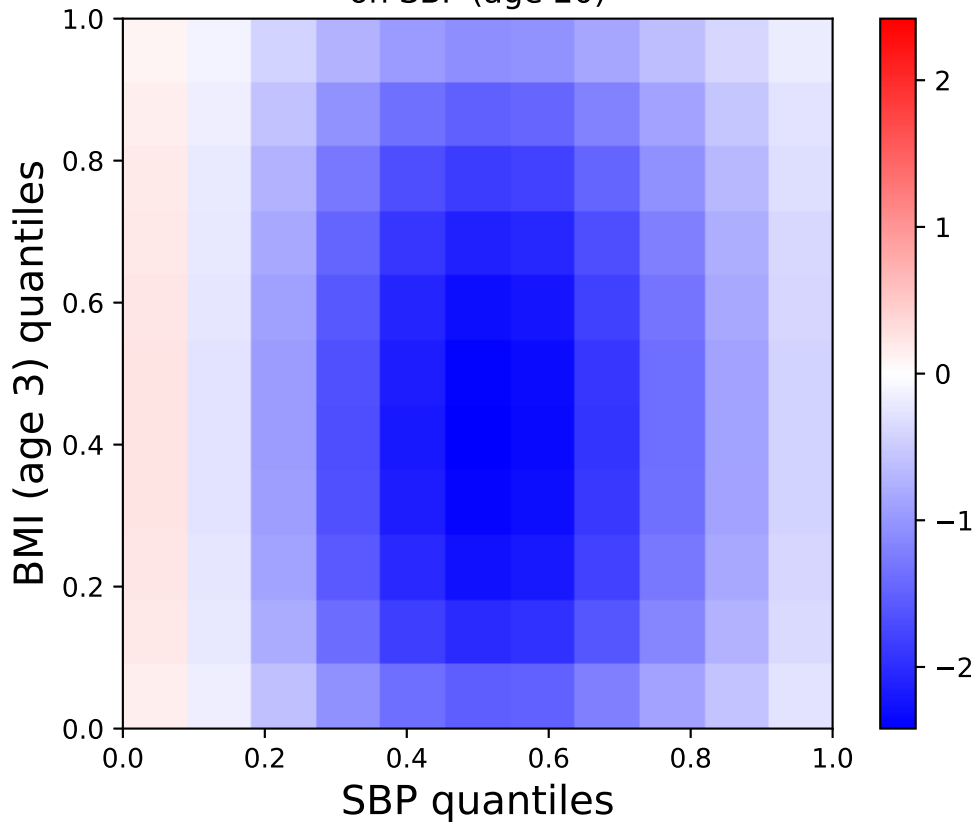

Female indirect effect of BMI (age 3)
on SBP (age 20) through adult Ht_Ave_Use

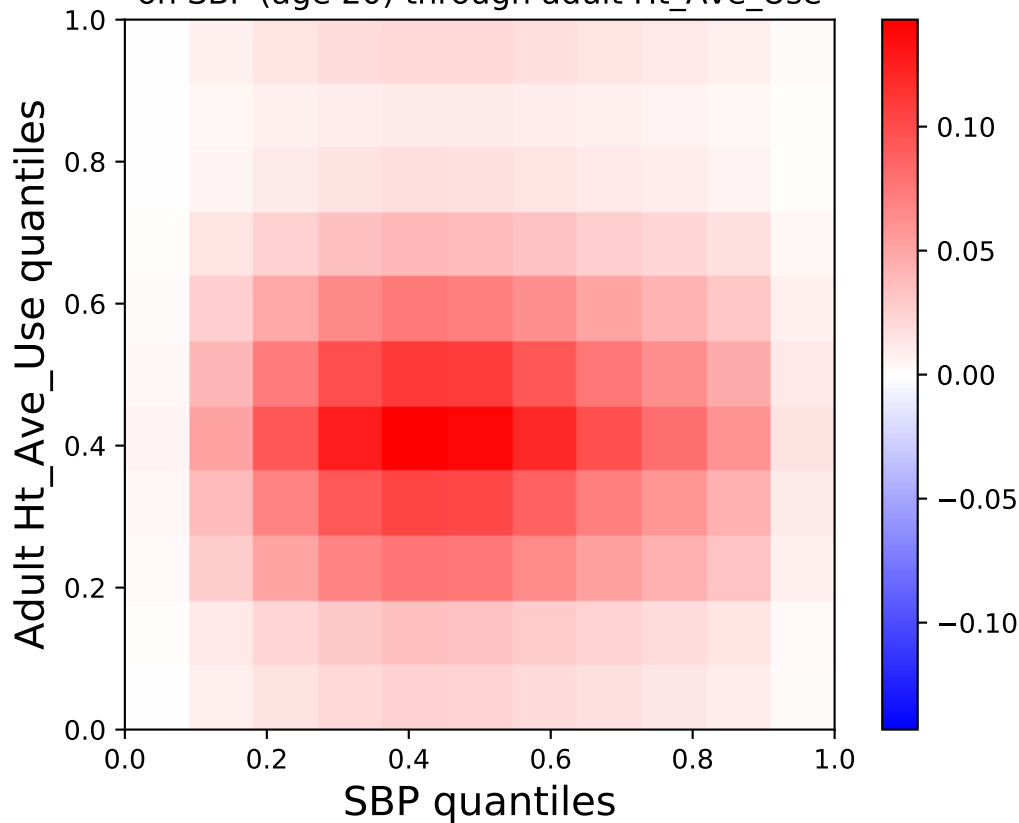

Female indirect effect of BMI (age 3)
on SBP (age 20) through adult BMI

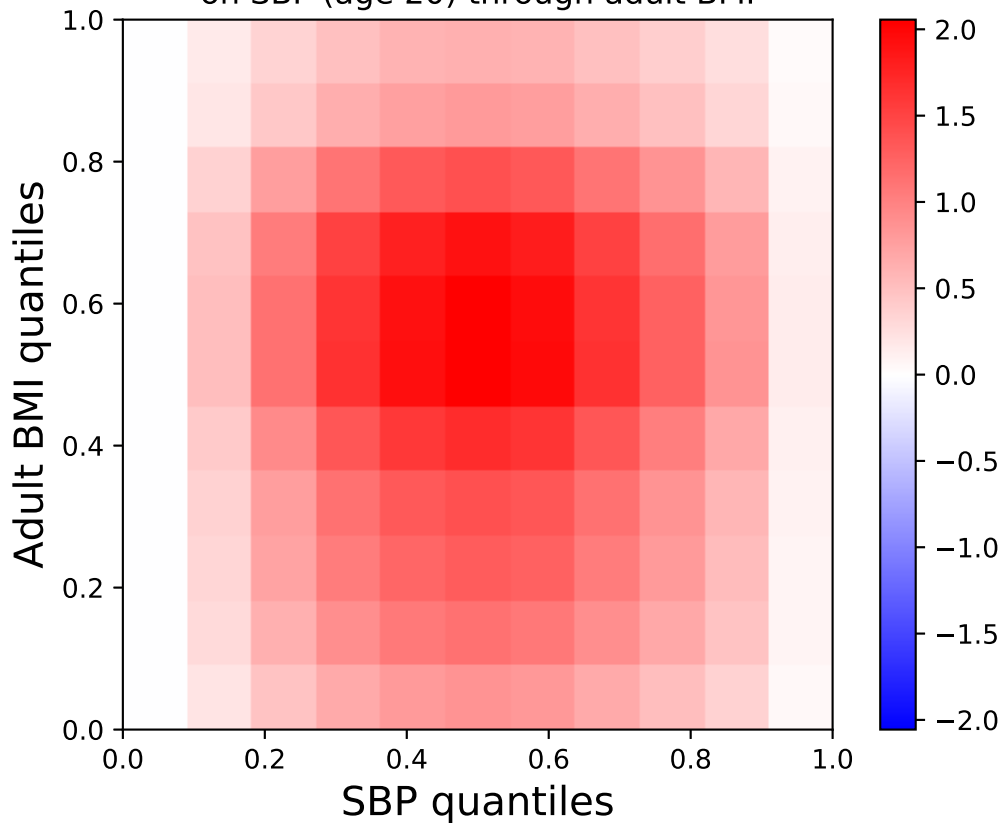

Male direct effect of BMI (age 3)
on SBP (age 20)

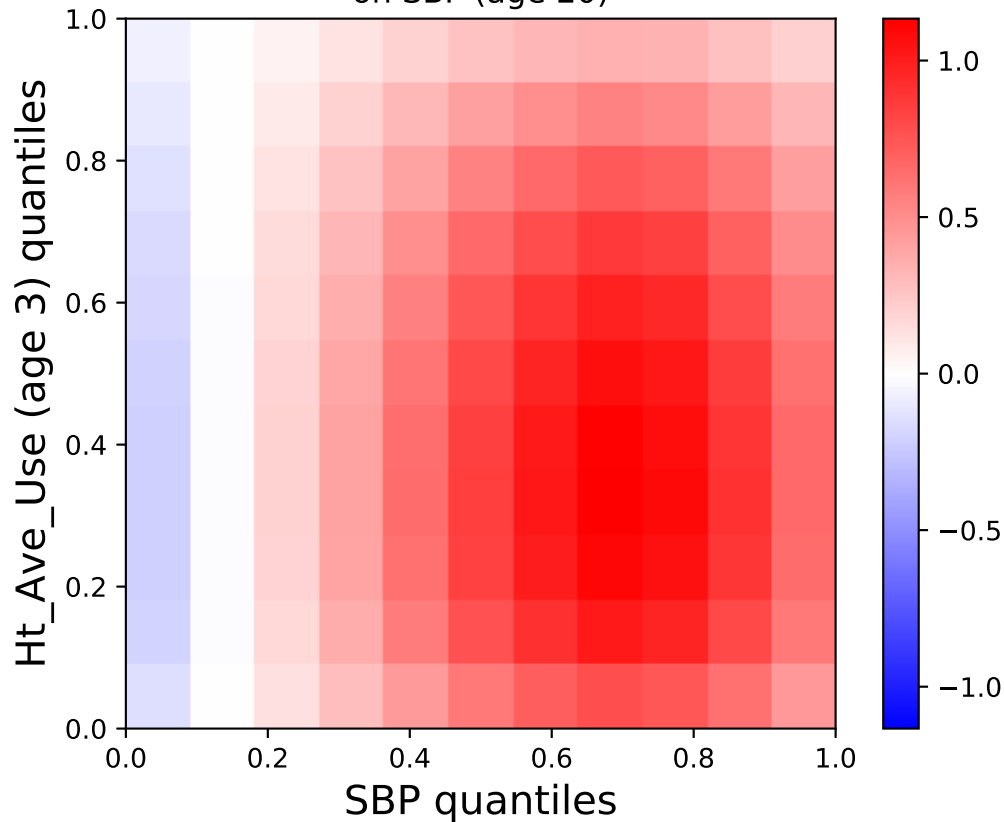

Male indirect effect of BMI (age 3)
on SBP (age 20) through adult Ht_Ave_Use

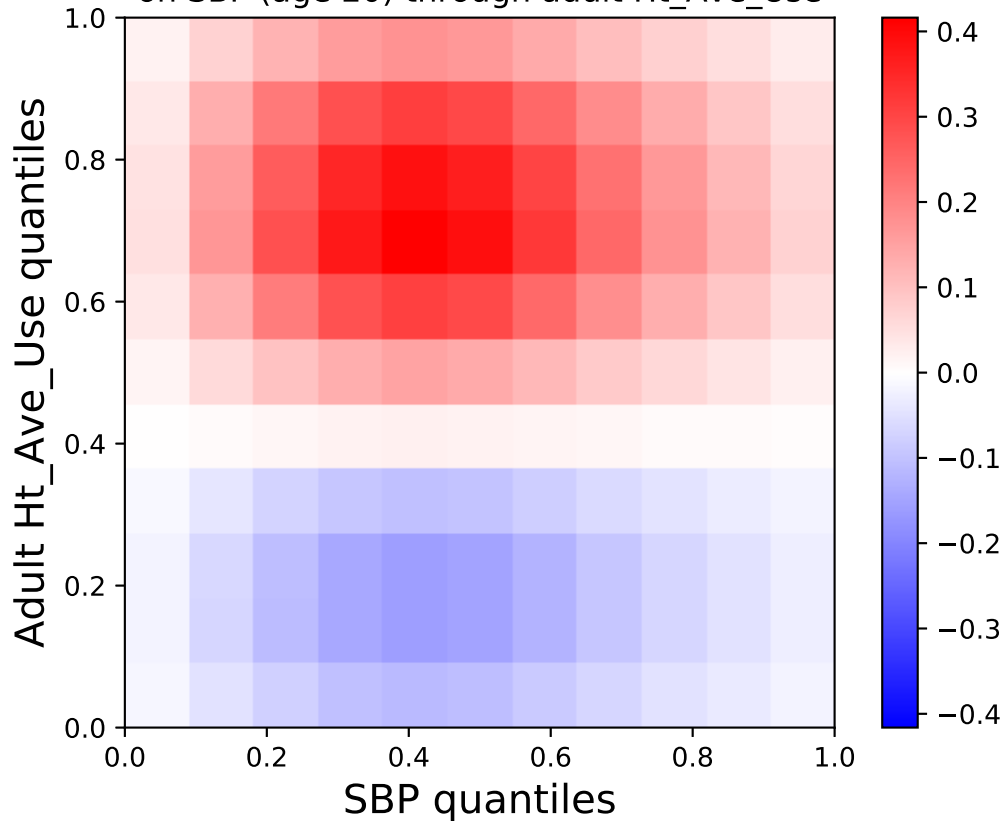

Male indirect effect of BMI (age 3)
on SBP (age 20) through adult BMI

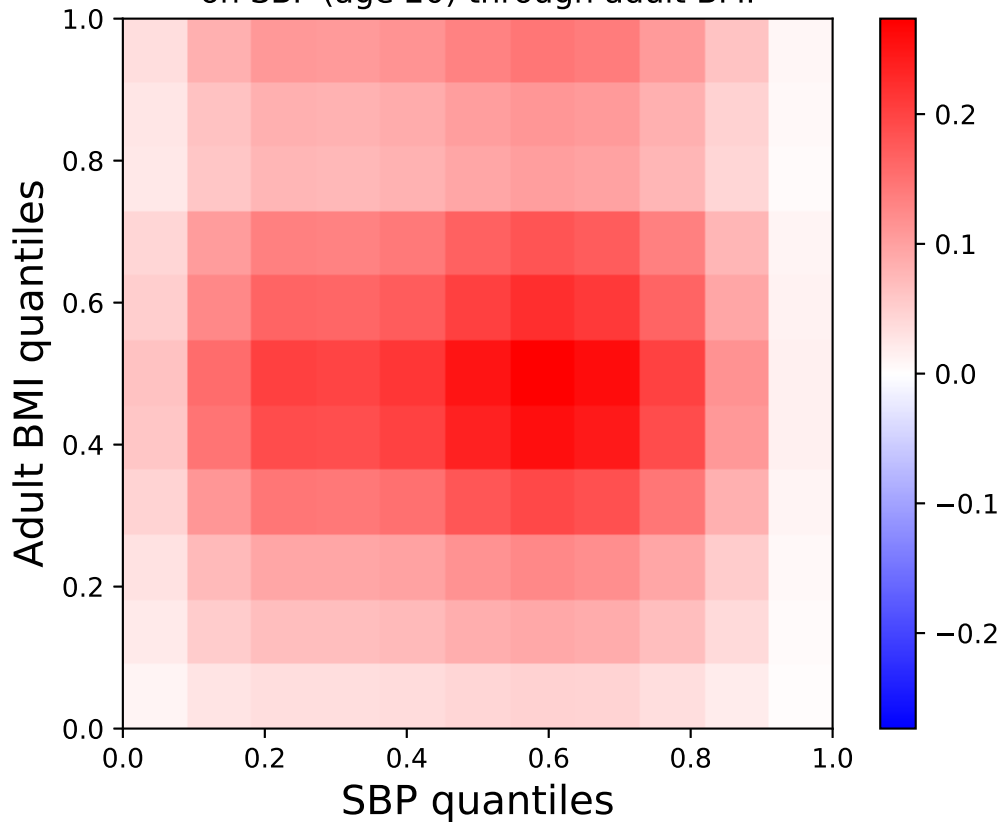

Female direct effect of Ht_Ave_Use (age 3)
on SBP (age 20)

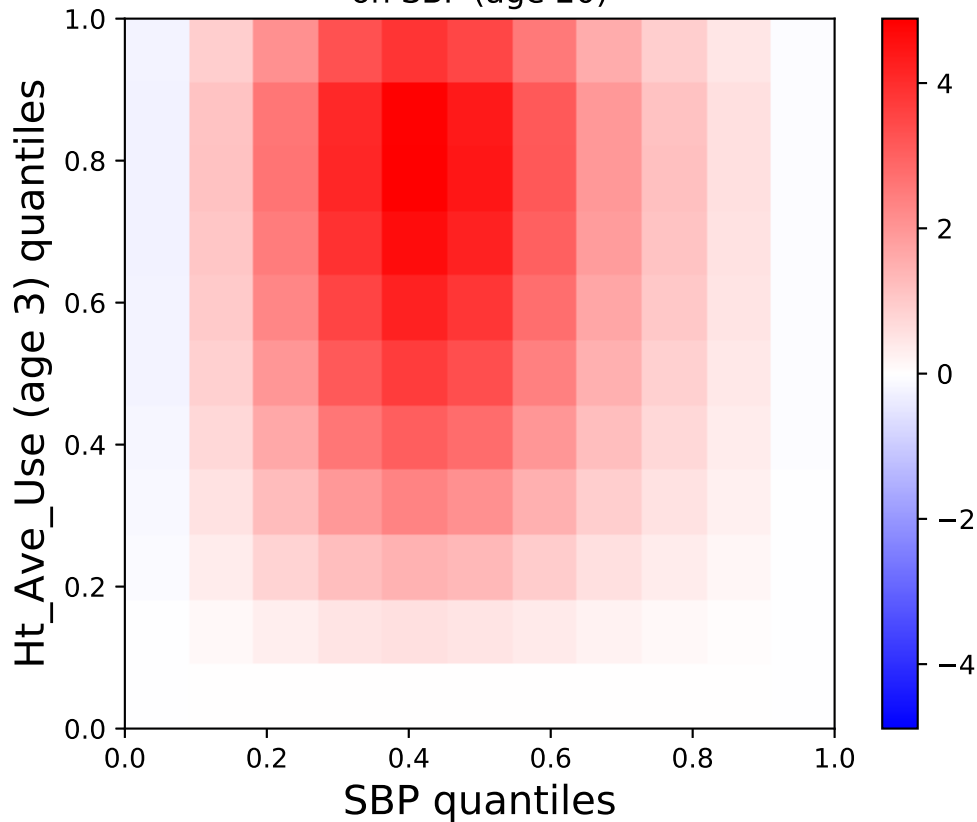

Female indirect effect of Ht_Ave_Use (age 3)
on SBP (age 20) through adult Ht_Ave_Use

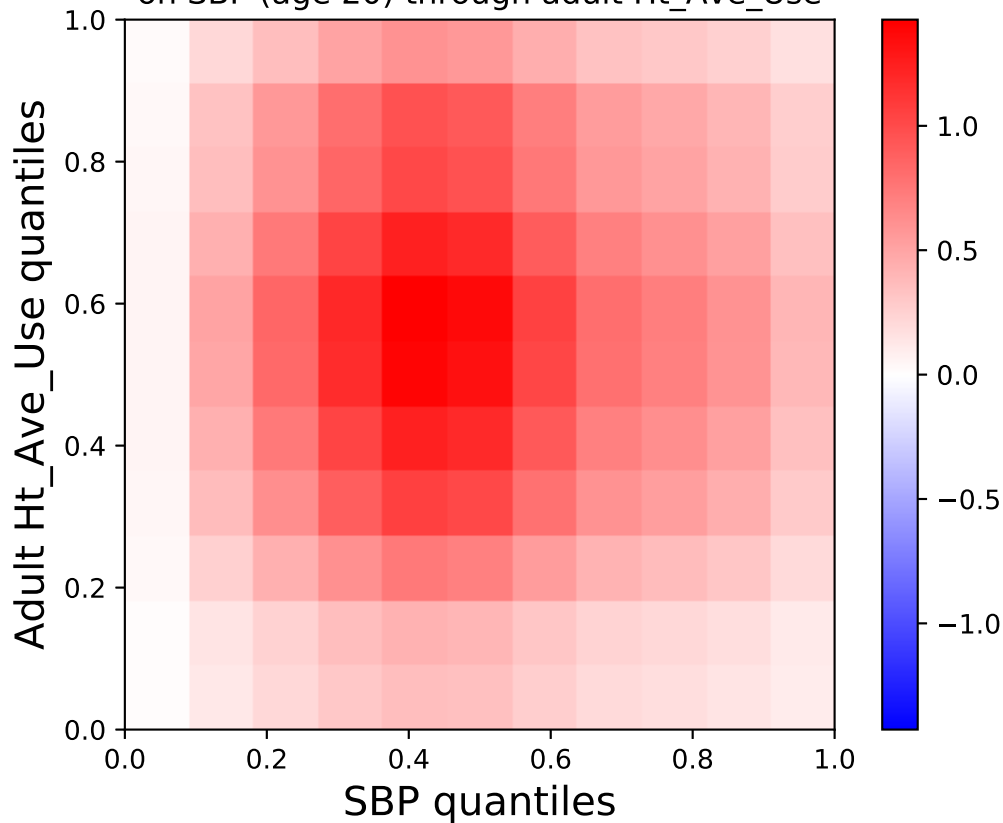

Female indirect effect of Ht_Ave_Use (age 3)
on SBP (age 20) through adult BMI

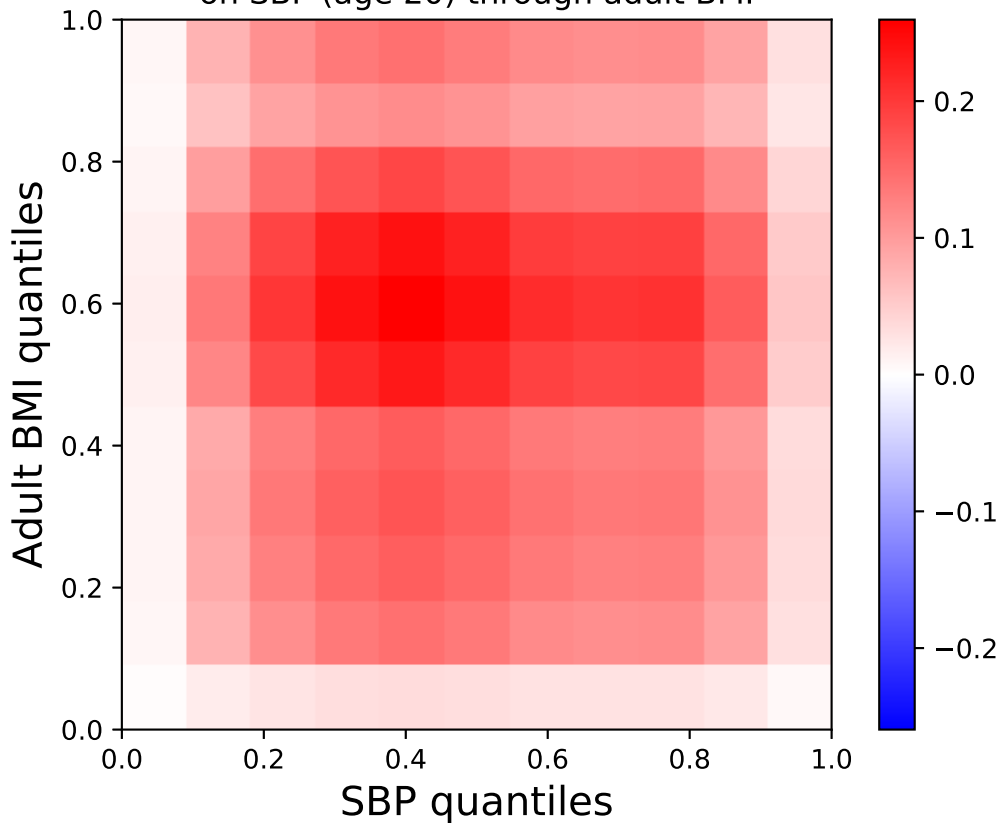

Male direct effect of Ht_Ave_Use (age 3)
on SBP (age 20)

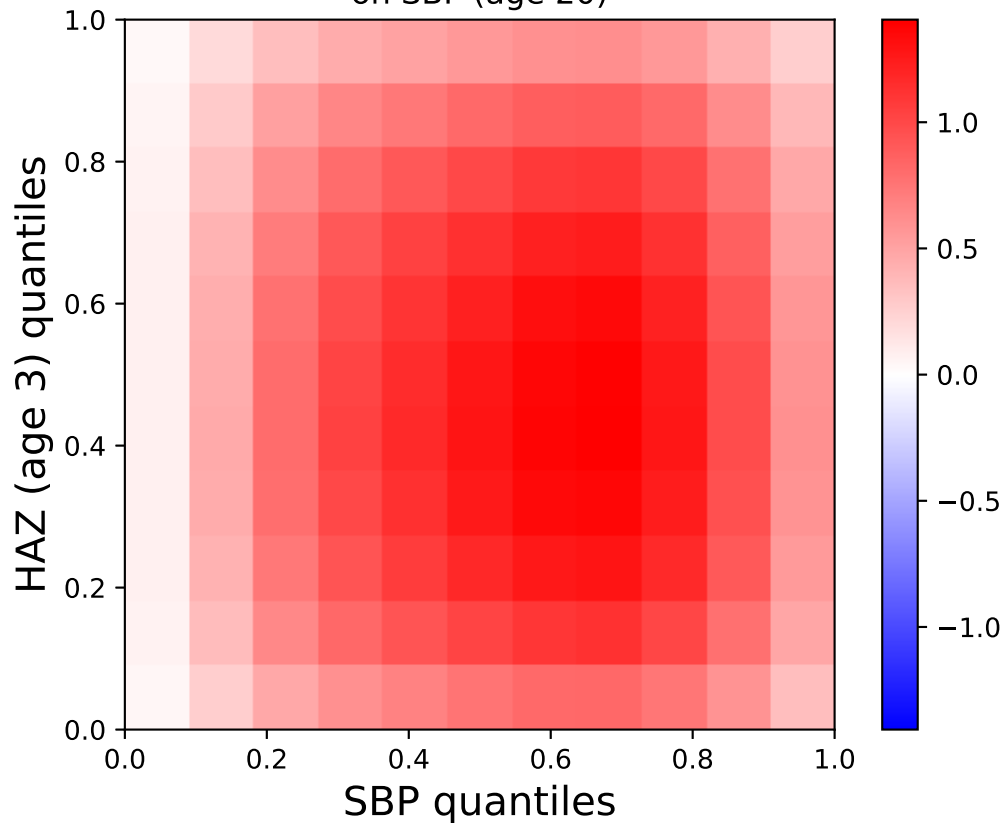

Male indirect effect of Ht_Ave_Use (age 3)
on SBP (age 20) through adult Ht_Ave_Use

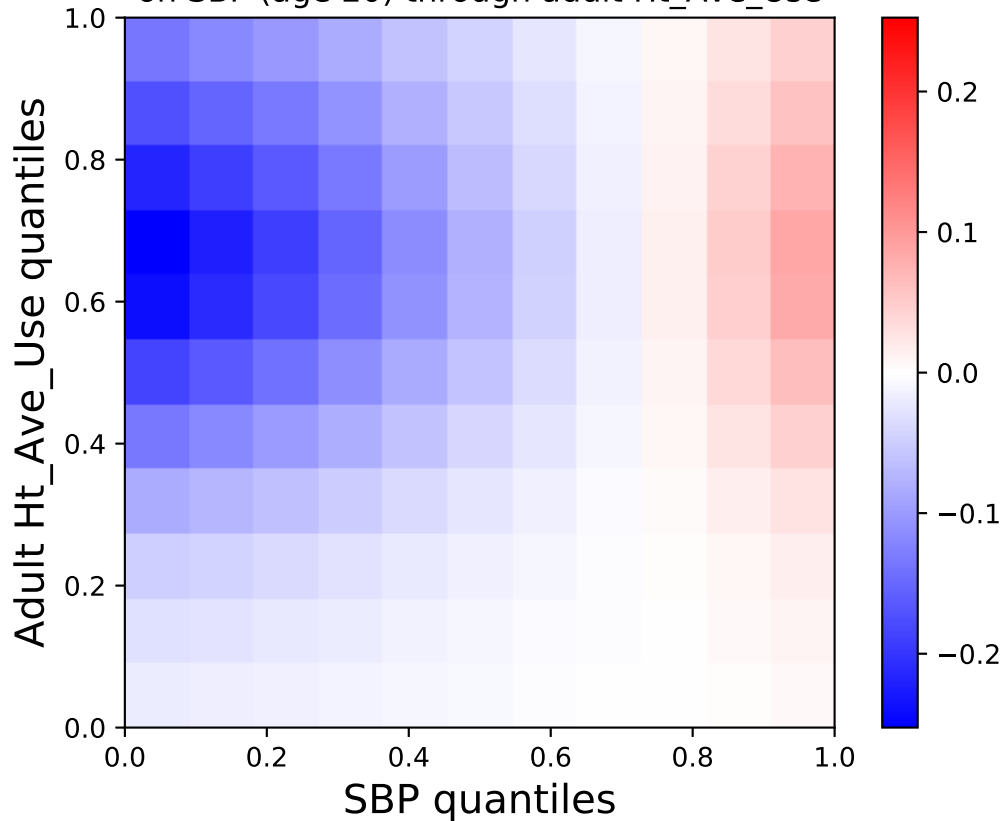

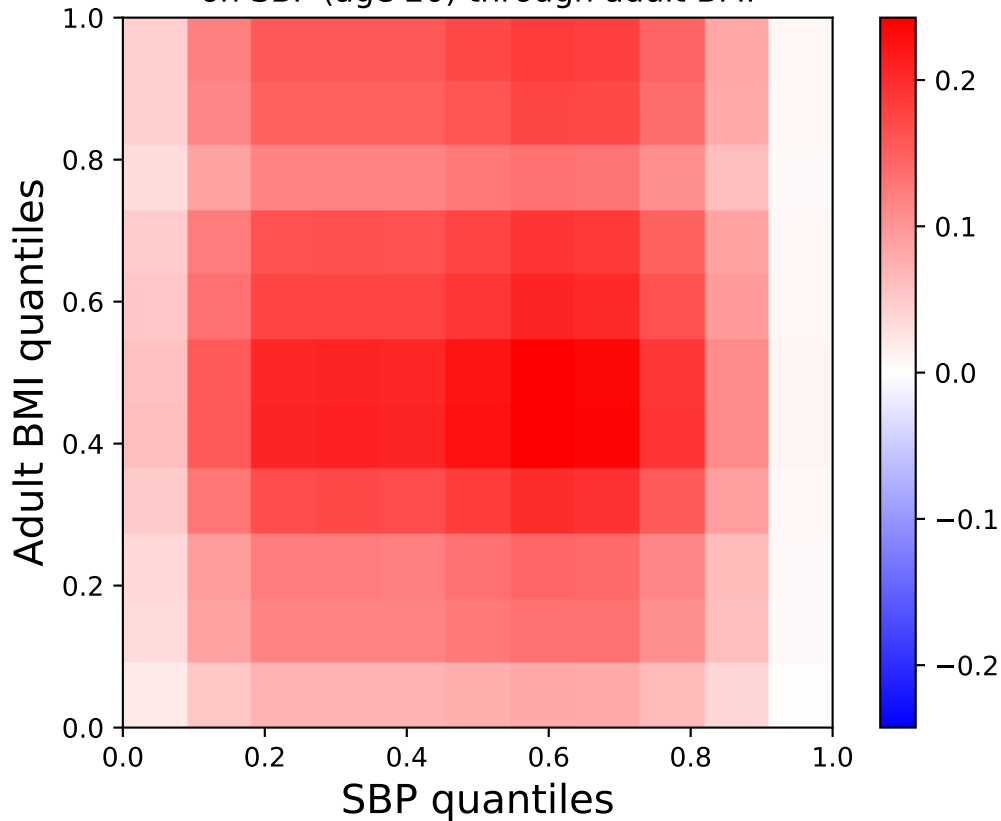

Female direct effect of HAZ (age 3)
on SBP (age 20)

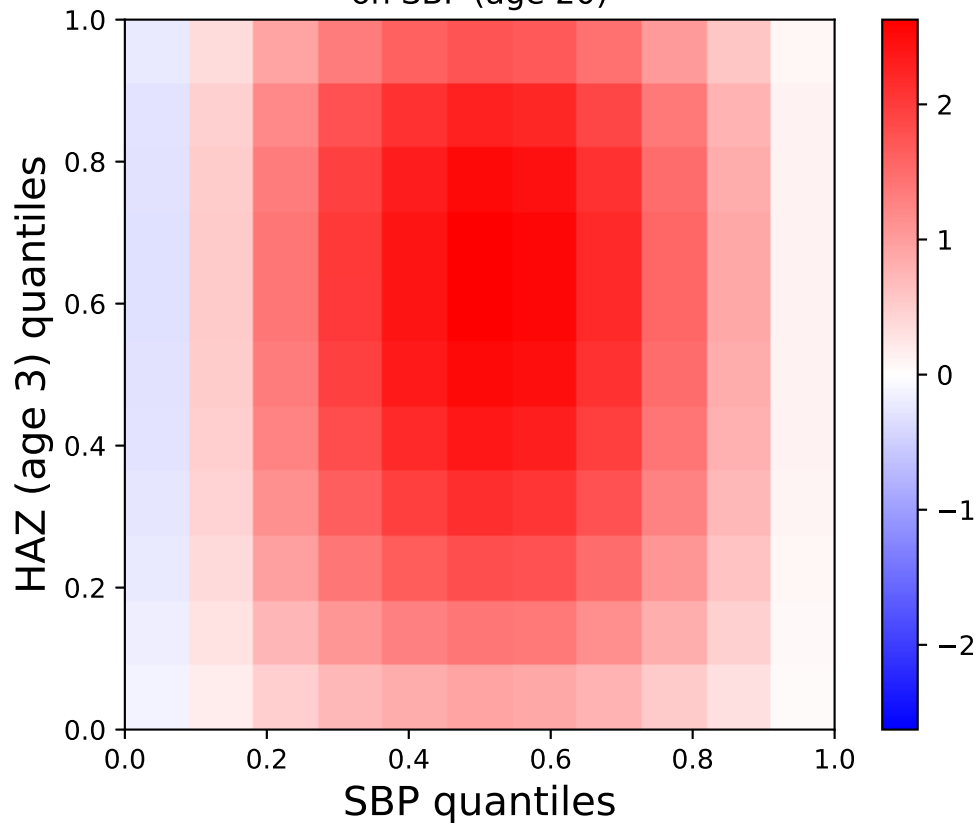

Female indirect effect of HAZ (age 3)
on SBP (age 20) through adult Ht_Ave_Use

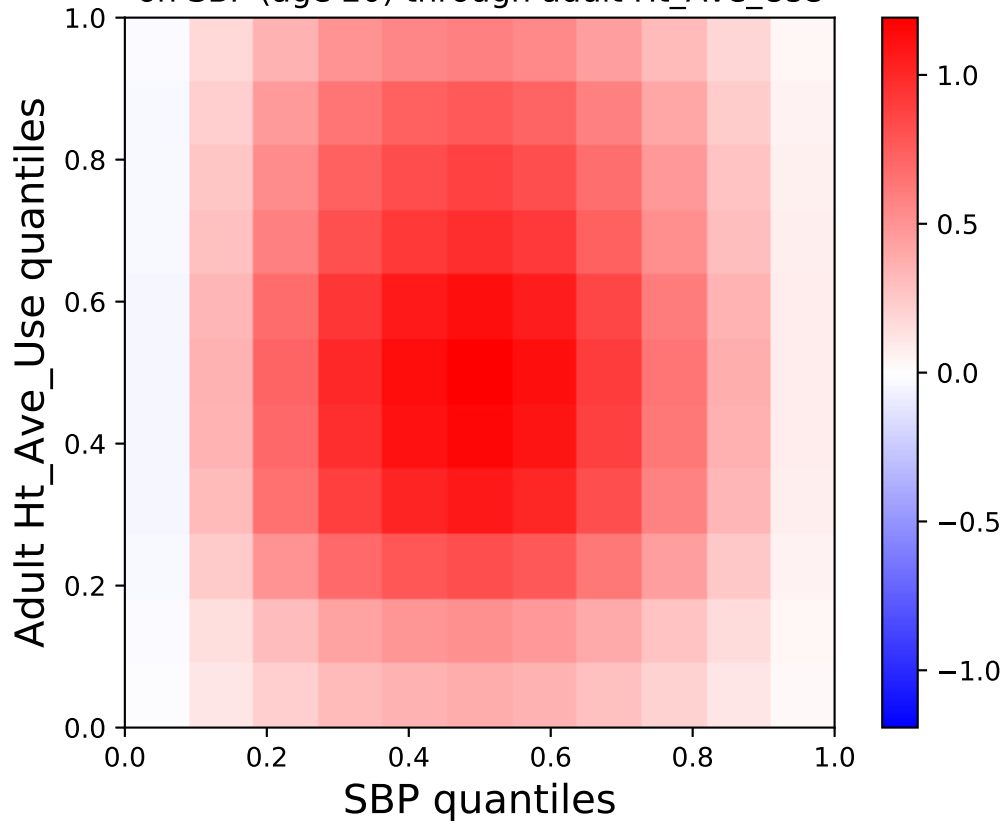

Female indirect effect of HAZ (age 3)
on SBP (age 20) through adult BMI

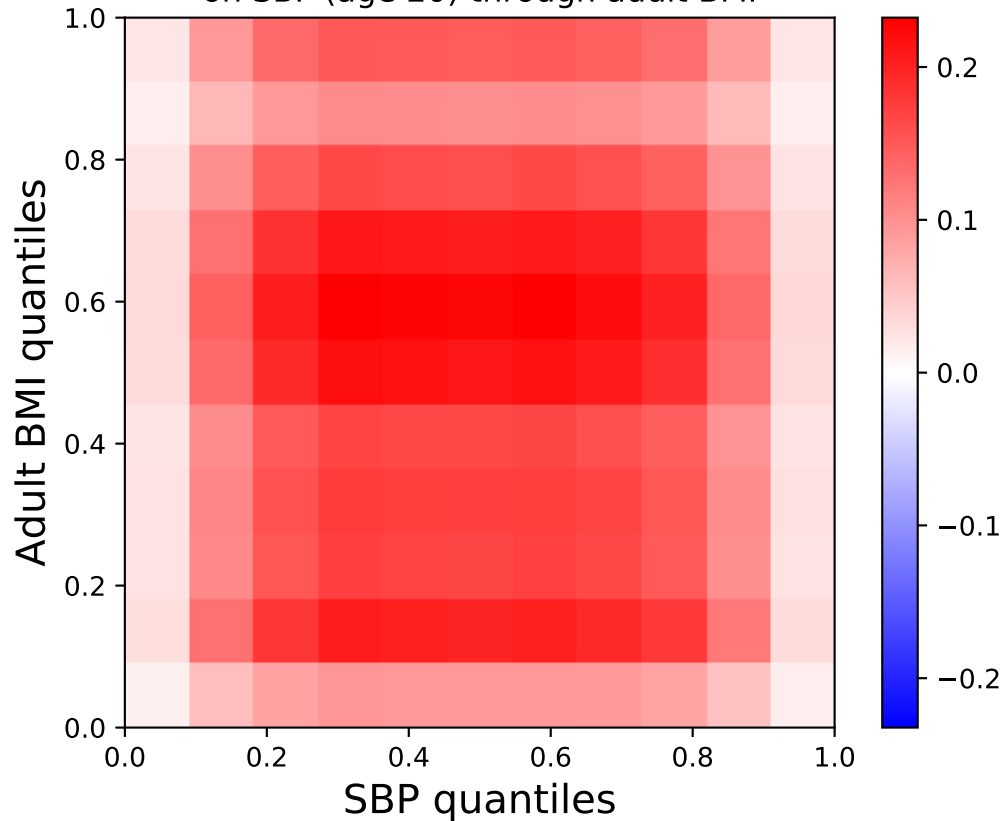

Male direct effect of HAZ (age 3)
on SBP (age 20)

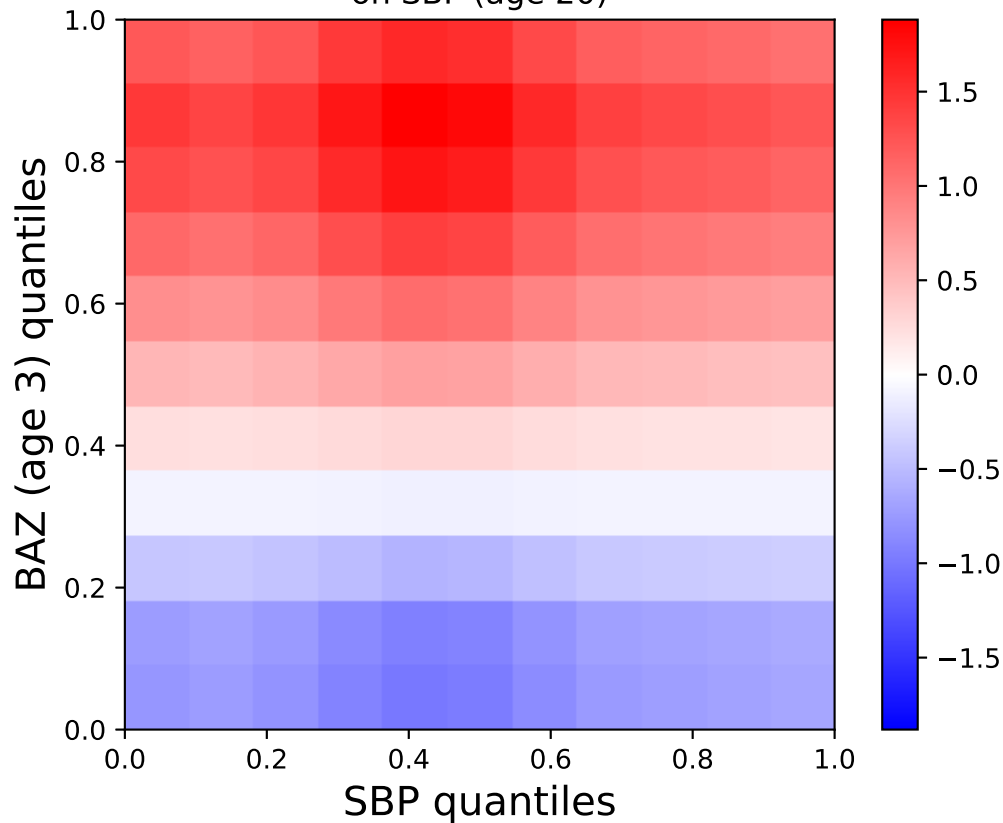

Male indirect effect of HAZ (age 3)
on SBP (age 20) through adult Ht_Ave_Use

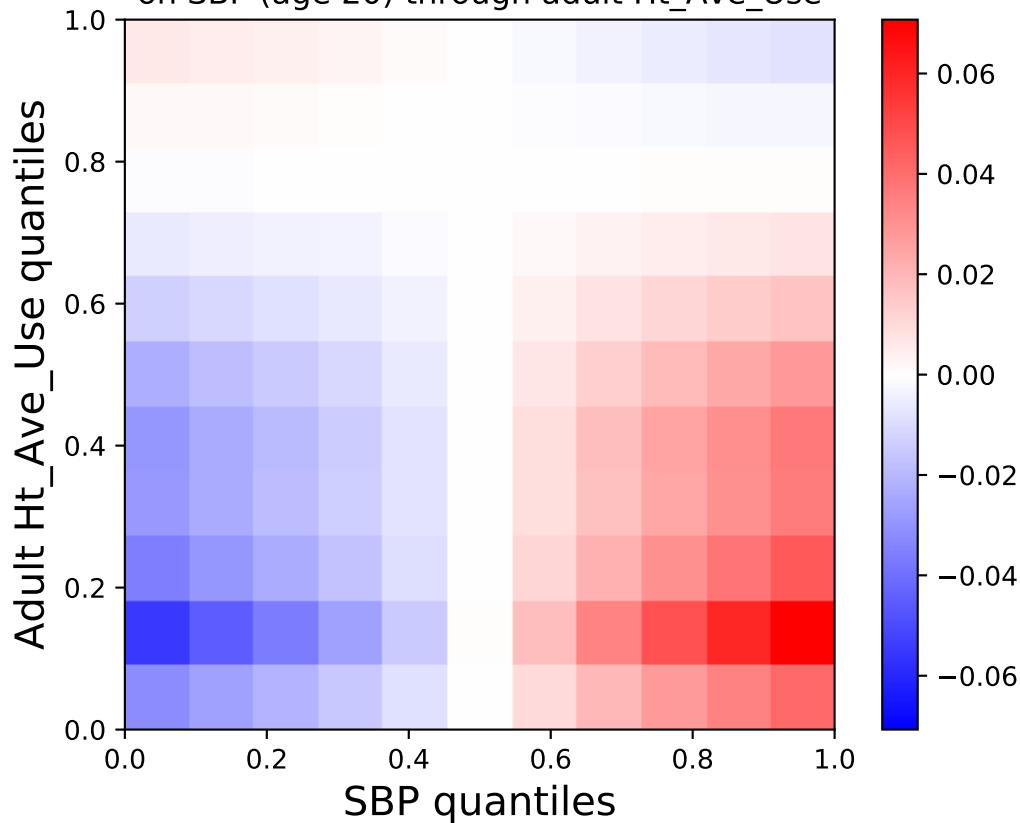

Male indirect effect of HAZ (age 3)
on SBP (age 20) through adult BMI

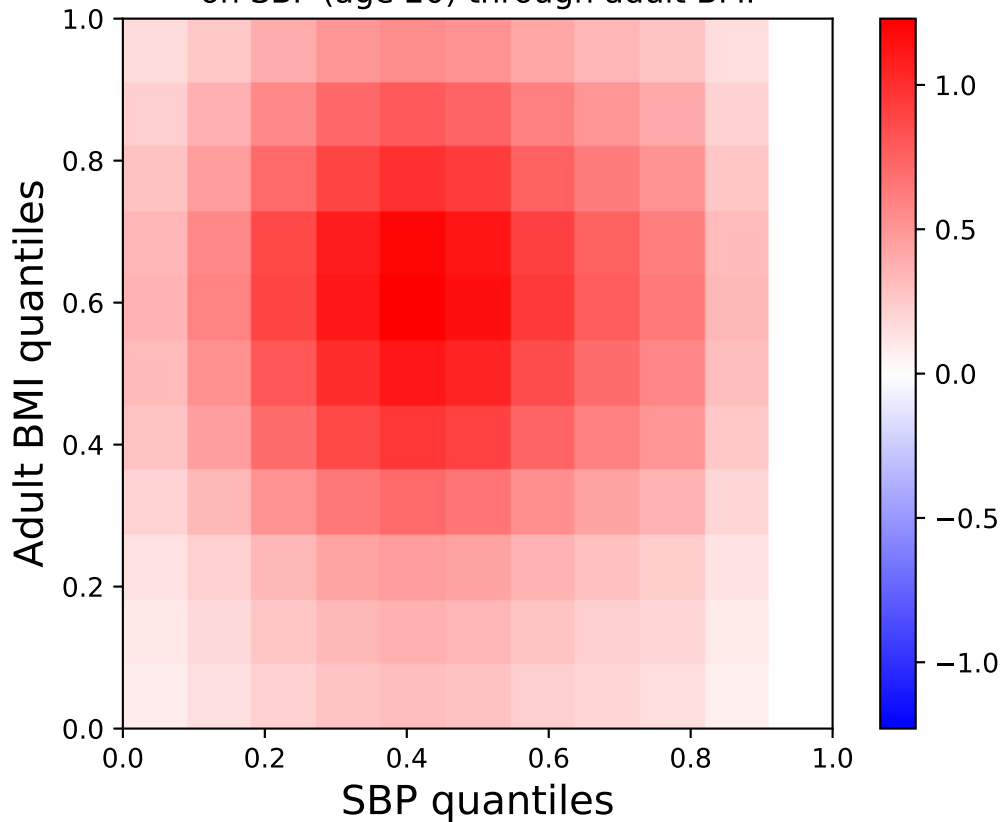

Female direct effect of BAZ (age 3)
on SBP (age 20)

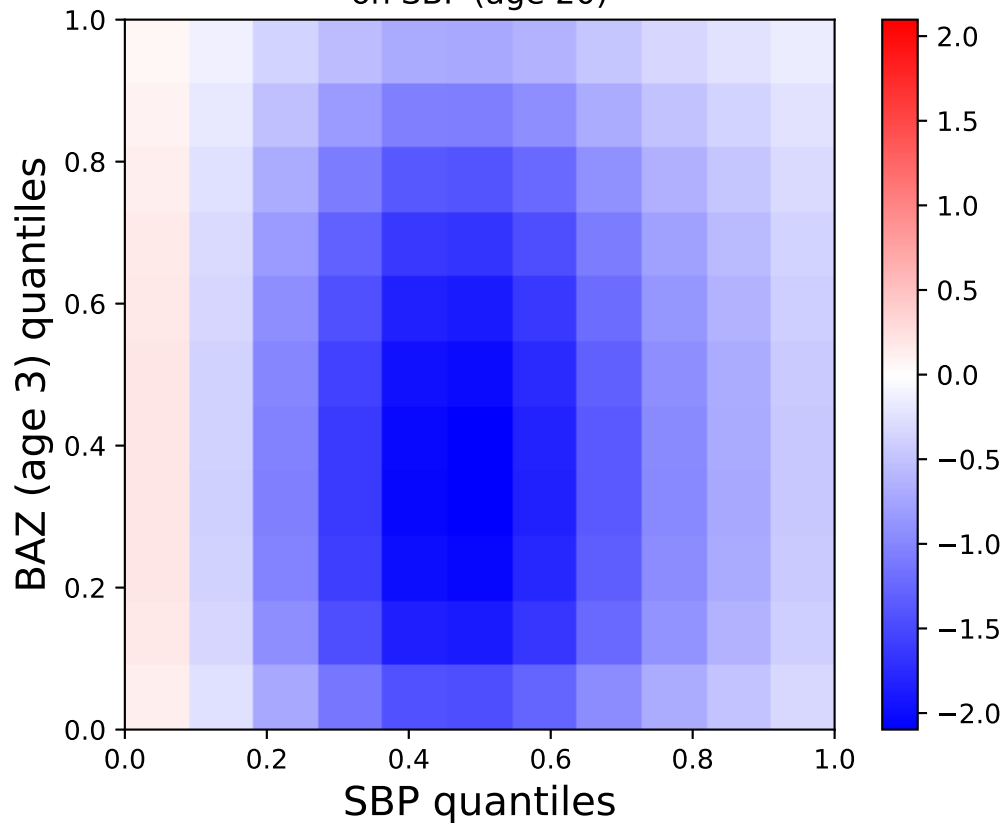

Female indirect effect of BAZ (age 3)
on SBP (age 20) through adult Ht_Ave_Use

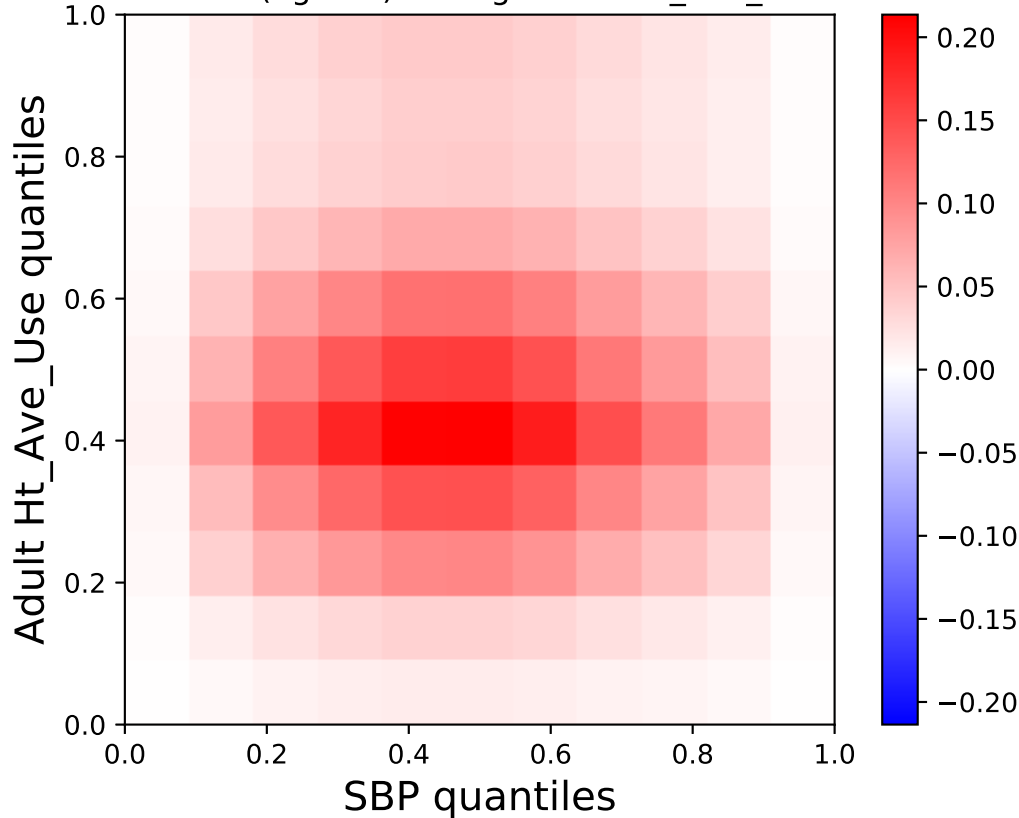

Female indirect effect of BAZ (age 3)
on SBP (age 20) through adult BMI

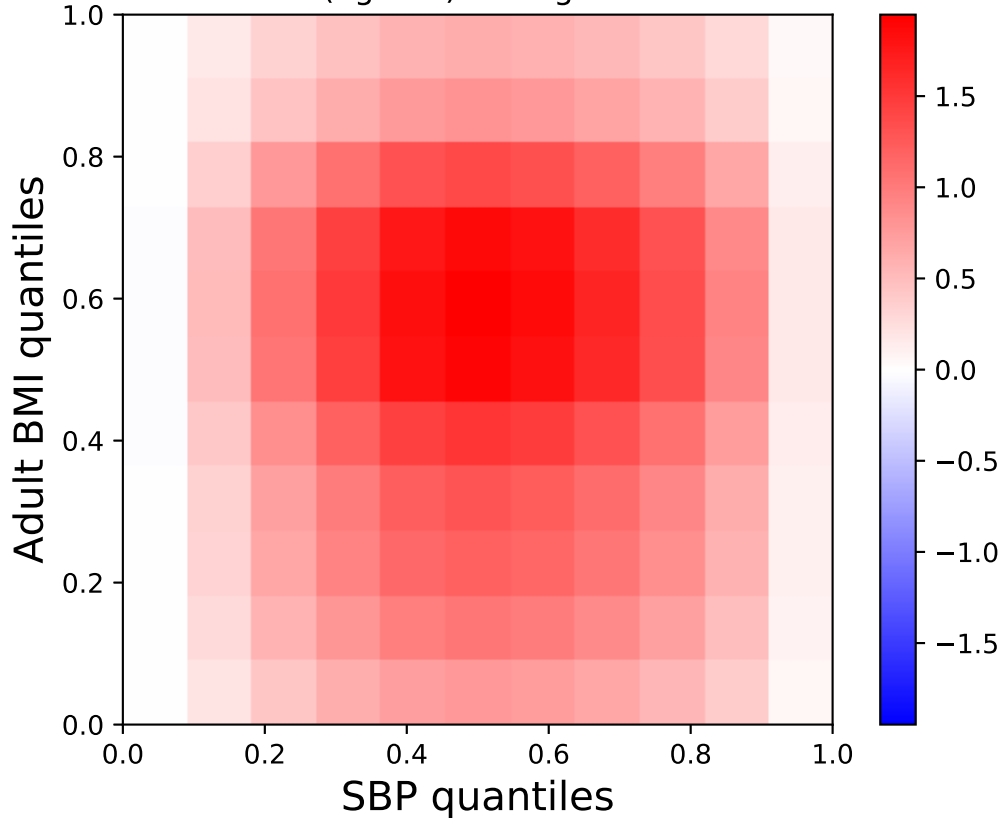

Male direct effect of BAZ (age 3)
on SBP (age 20)

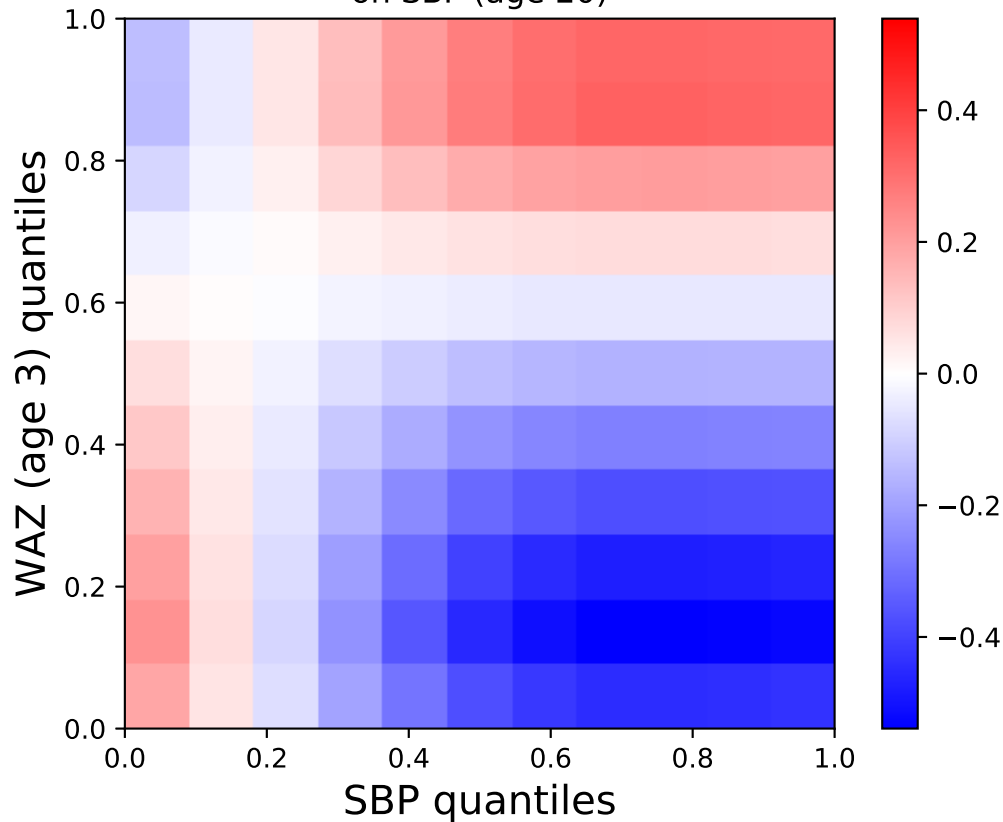

Male indirect effect of BAZ (age 3)
on SBP (age 20) through adult Ht_Ave_Use

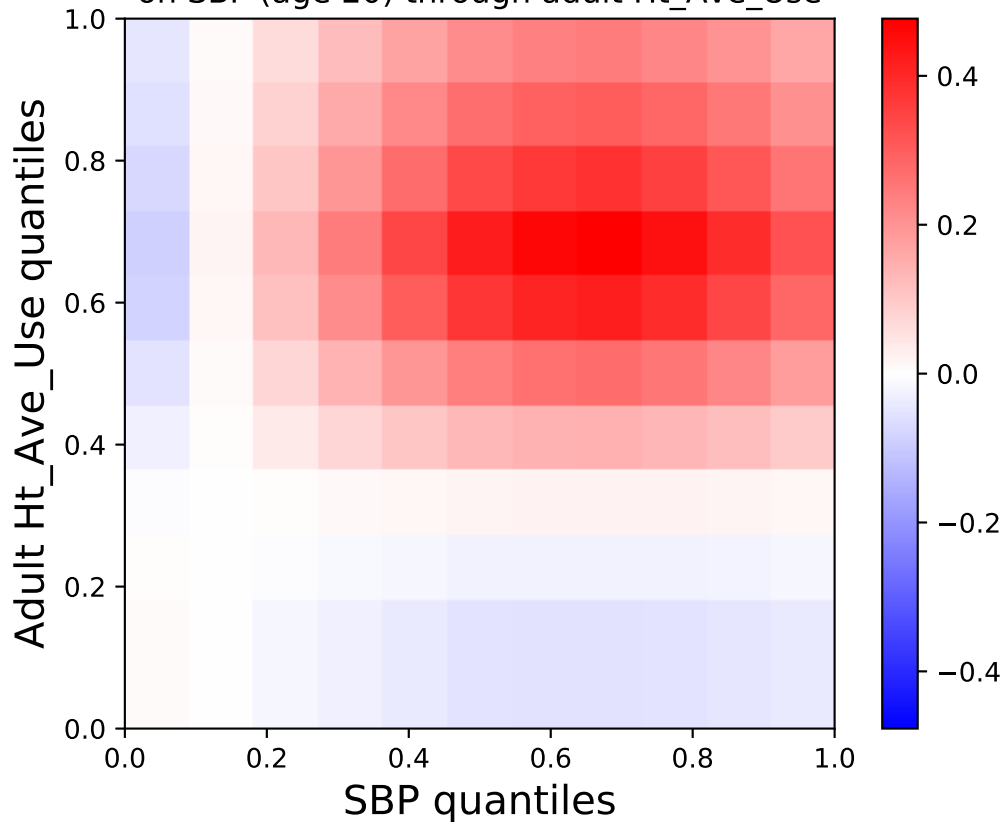

Male indirect effect of BAZ (age 3)
on SBP (age 20) through adult BMI

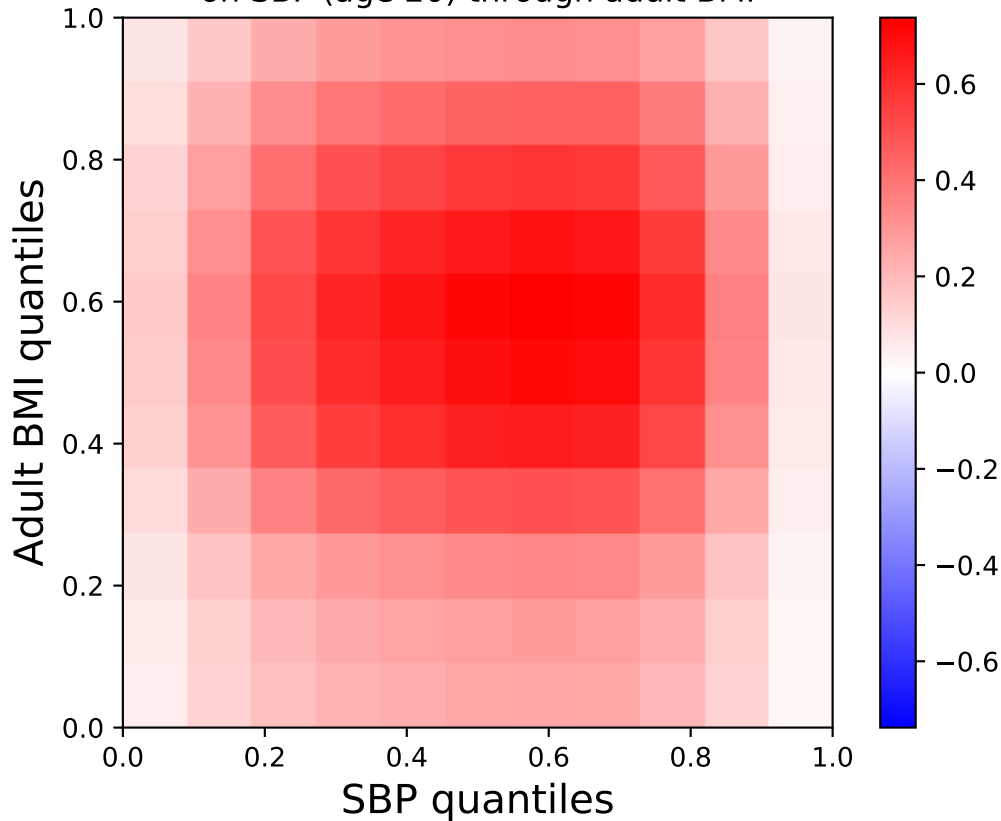

Female direct effect of WAZ (age 3)
on SBP (age 20)

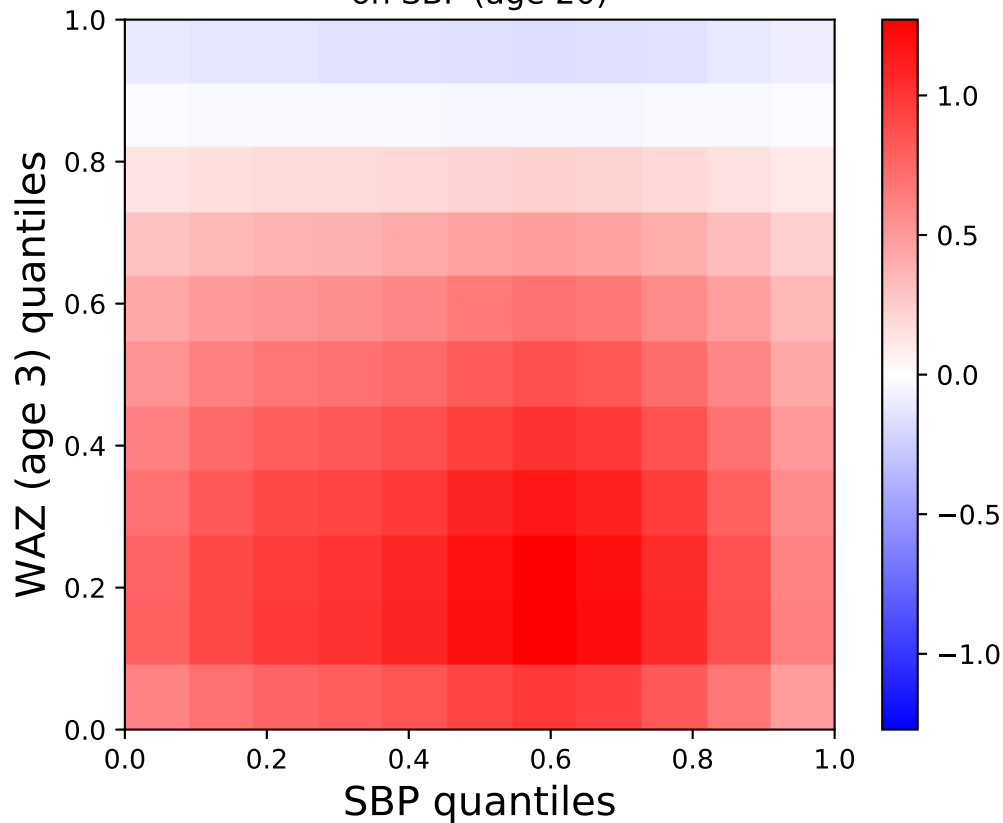

Female indirect effect of WAZ (age 3)
on SBP (age 20) through adult Ht_Ave_Use

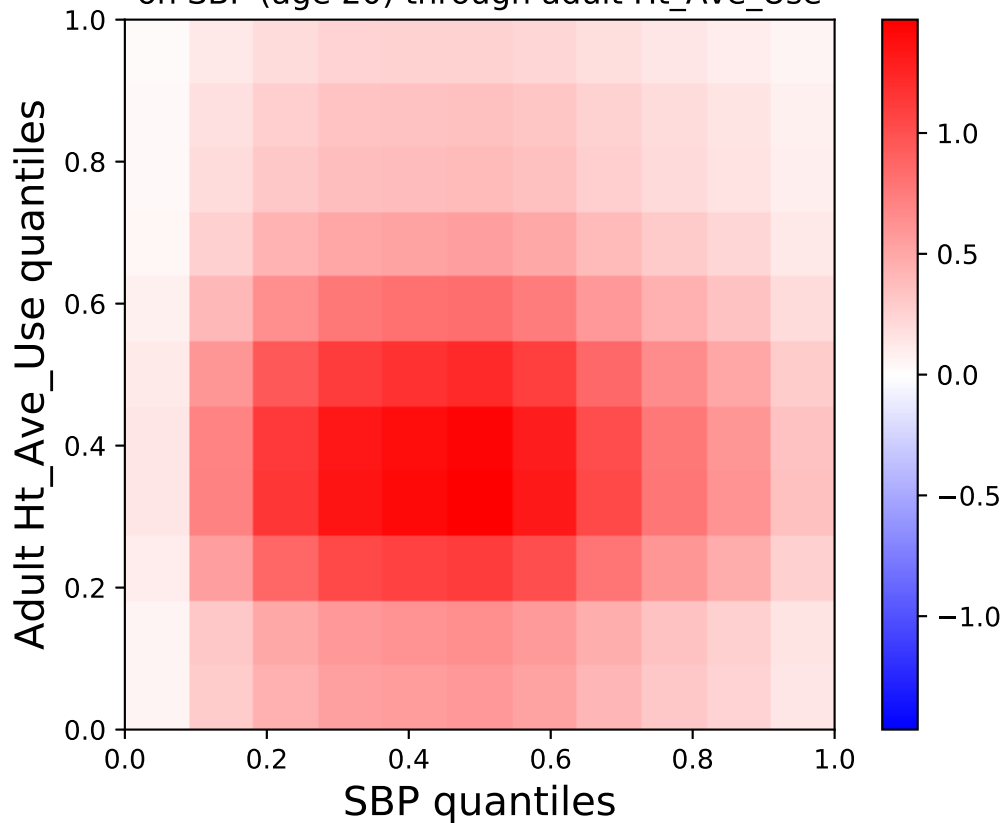

Female indirect effect of WAZ (age 3)
on SBP (age 20) through adult BMI

Male direct effect of WAZ (age 3)
on SBP (age 20)

Male indirect effect of WAZ (age 3)
on SBP (age 20) through adult Ht_Ave_Use

Male indirect effect of WAZ (age 3)
on SBP (age 20) through adult BMI
